For the past 4 years I've been working as a Software Developer in Spain and now I'm finishing my master's thesis in Germany. Mostly focused in Web development but also interested in Computer Science in general. I approach my duties with humility, and *avoid clever tricks like the plague.*

Professional experience

UNIVERSITÄT DUISBURG-ESSEN   GERMANY

Researcher   *Oct '16 —*
Topic of my thesis: *Natural language processing applied to manage Semantic Diversity in Inquiry-Based Learning environments.* Finishing it under the supervision of the Collide research group.

COGNIZANT TECHNOLOGY SOLUTIONS   SPAIN AND BELGIUM

Frontend Developer for KBC Bank & Verzekering   *Aug'14 — Jun'16*
Part of a remote team integrated in an Agile environment, focused on its Web banking application (**KBC Touch**) and working on different projects: Current & Savings accounts, Sign up for a new account (with strong **focus on usability**), Performance.
Stack: AngularJS, JavaScript (CoffeeScript), Jasmine, Git, Atlassian tools (Jira, Confluence, Stash), and Node.js based automation tools (Grunt, Gulp, etc.).

CRESERTEC S.L.   SPAIN

Fullstack Developer   *Nov '12 — May '14*
Part of a small team of developers working on several projects (**eCommerce sites** and REST APIs for mobile apps), involved in all the layers of development: data modeling, backend infrastructure, APIs, frontend design and usability. Also worked on some of its Android applications.
Stack: Ruby (Sinatra), PHP (CakePHP & Silex), JavaScript, Android (Java), Git, MongoDB, MySQL.

Education

M.Sc. IN COMPUTER SCIENCE. Universität Duisburg-Essen. Germany.   *Oct '16 —*
M.Sc. IN COMPUTER SCIENCE. University of Valladolid. Spain.   *Oct '15 — Jun '16*
B.Sc. IN COMPUTER SCIENCE. University of Valladolid. Spain.   *Oct '06 — Jun '12*

Skills

I started my career using the LAMP stack and rapidly moved to the MEAN stack. I usually work with JavaScript, touching on Java, moving to Python, and most recently Clojure. Experience with Web frameworks like AngularJS and a bit of React. Solid knowledge of OOP, design patterns and immersing myself in functional programming. Git. Comfortable working on *nix environments (MacOS, Ubuntu). Spanish (mother tongue), English (full professional proficiency), German (learning).

Personal Projects

These are some of my personal projects, published on Heroku and Google Play Store.
F. Sentiment analysis of the tweets of Valladolid city.   *Apr '15*
Cassandra. Departure times for Palencia's bus lines always right in your pocket.   *Oct '14*
